skateone® DECKS

All Powell, Powell-Peralta, Powell Classic, Surf One and Mini-Logo brand decks are manufactured in our Santa Barbara skateboard factory. Skate One designed and fabricated AirLam low pressure air bladder presses are used to laminate 7 plies of the finest grade American, hard rock maple, with high strength, water resistant glue. Each deck is then sealed against moisture with a water base acrylic semi-gloss finish. Silk-screened decks are given an additional coat of clear acrylic to add additional protection to the multi-layer ink coating. Designated Deck graphics decks are given an additional coat of SST for longer slides. Skate One decks are precisely controlled in thickness for optimum performance and warranted against de-lamination for the useful life of the deck.
